Allowance

Allowable Subject Matter

1. Claims 1-19 are allowed.
2. The following is an examiner's statement of reasons for allowance: The reasons for allowance are based on the inclusion of:
 - a. In claim 1, a displacement force exerted on the top surface by visco-elastoplastic media above the upper plate will move the upper plate a displacement distance toward a base; an area between the upper plate and the base is substantially sealed to prevent entry of visco-elastoplastic media into the area when the apparatus is buried in the visco-elastoplastic media.
 - b. In claim 11, the method step of locating the base and upper plate at a desired depth under the surface of the visco-elastoplastic media; the method step of orienting the upper plate relative to the base such that a displacement force exerted on visco-elastoplastic media above the top surface will move the upper plate a displacement distance downward toward the base.

These limitations in combination with other inventive features of the claims render this case allowable.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
